

Interview Tips

Tip 1: Ask open-ended questions, not close-ended questions. Open-ended questions require a longer answer than just “yes” or “no.”

Tip 2: Talk about big, important topics.

Tip 3: Follow up with more questions. After an answer is given, you can follow up with another question based on their answer.

Tip 4: Listen! Pay attention to what they are saying. This will show them that you care. Keep eye contact, nod occasionally, and face your body towards the person being interviewed.
