

Biblical Empowered Worldview

Laying a foundation for lasting change

New perspective, new possibilities

Many people want to change their circumstances but find it difficult to break the cycle of poverty. Feelings of powerlessness and low self-worth can dominate their worldview and hold them back.

World Vision's Biblical Empowered Worldview curriculum counters these broken mindsets with a biblical view of each person's God-given potential. Through the training, individuals learn to see themselves and their circumstances differently—and to embrace their own ability to make positive changes. This new perspective, rooted in faith, empowers people to contribute to their communities using their own unique abilities.

Additionally, some participants are trained as facilitators so they can extend the training to others, enabling community transformation from the inside out and laying a solid foundation for the future.

Multiplying hope

In practicing World Vision's Biblical Empowered Worldview, Damaris in Kenya is sharing the secret to living a full life. The result? More than 500 farmers in her area have been inspired to raise animals, grow crops, and more, building a foundation for lasting change.

GLOBAL IMPACT 3.6 million adults and children in 26 countries benefited from Biblical Empowered Worldview training between 2016 and 2022.
