

DEAR TEACHERS,

ACSI and World Vision have partnered together to teach our students about global poverty through a FREE educational resource and by hosting the World Vision Global 6K. This educational resource combined with an engaging student driven activity will allow our students, families and community to come together in a meaningful way to become global citizens.

World Vision has created a new, K-12 resource, the **Lessons for Global Citizens** book. It has been designed to engage our students and increase their awareness of global poverty and justice. Alongside this resource, we will be a host site for the Global 6k for water, a fun event that empowers our students to learn about the water crisis by walking/running the average distance a child in Africa walks to fetch dirty drinking water.

Lessons for Global Citizens includes:

- An introduction and overview of the resources included
- Lessons grouped by grade-level to educate and inspire student's involvement in global issues as well as spiritual growth
- An interactive, hands-on experience combined with video and real-life stories

To ensure our students have an excellent experience, World Vision is also providing additional resources, including a website with engaging videos, stories, and supporting information. Here you can also access a digital copy of **Lessons for Global Citizens**, and download by lesson. Your landing page is:

www.worldvision.org/acs-teacher-resources

We are excited to partner with World Vision in educating our students on global poverty both through scripture based lessons and activities, as well as a chance for them to participate in a fun and engaging event.

If you have any questions about our program with World Vision, please call 888-511-6582 or email schoolquestions@worldvision.org.
